Nile University Grad Project

EMOSENSE

# EmoSense App - Quick Guide

## What is EmoSense?

EmoSense is an app that uses AI to detect emotions in videos. Upload a video or a YouTube link, and it will analyze facial expressions to show the emotions.

## How It Works

1. Upload a video or YouTube link.
2. AI analyzes it in 10-15 seconds.
3. Get emotion results with confidence scores.
4. Access detailed insights and reports.

## Who Can Use It?

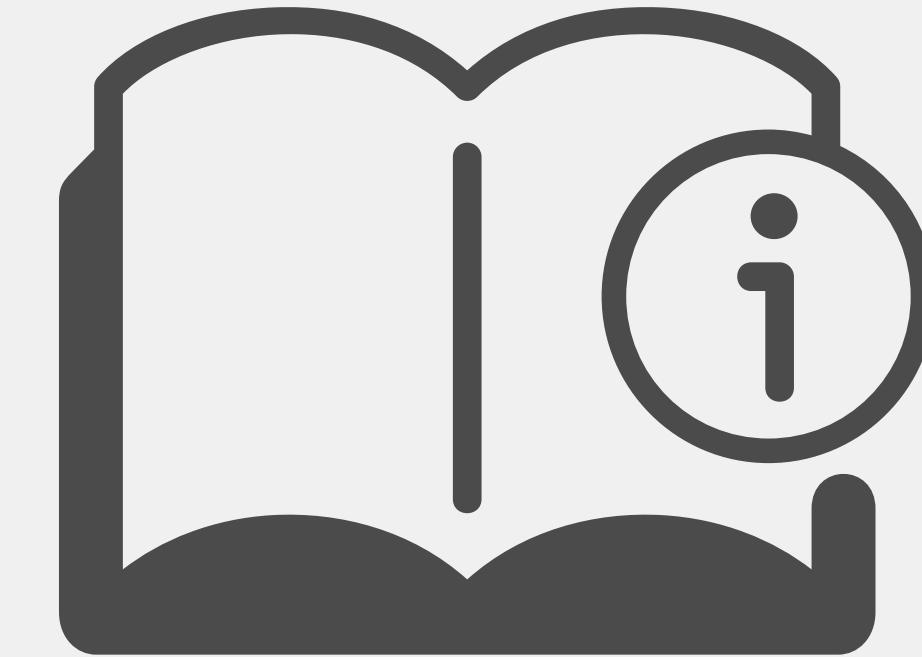

- **Customer Service:** Improve staff training.
- **HR Teams:** Understand employee satisfaction.
- **Businesses:** Make decisions based on customer emotions.

## Key Features

- Detects emotions like Happy, Sad, Neutral, etc.
- Provides professional emotion snapshots.

## Built With

- Flutter for cross-platform use.
- AI for emotion recognition.
- Clean Architecture for easy maintenance.

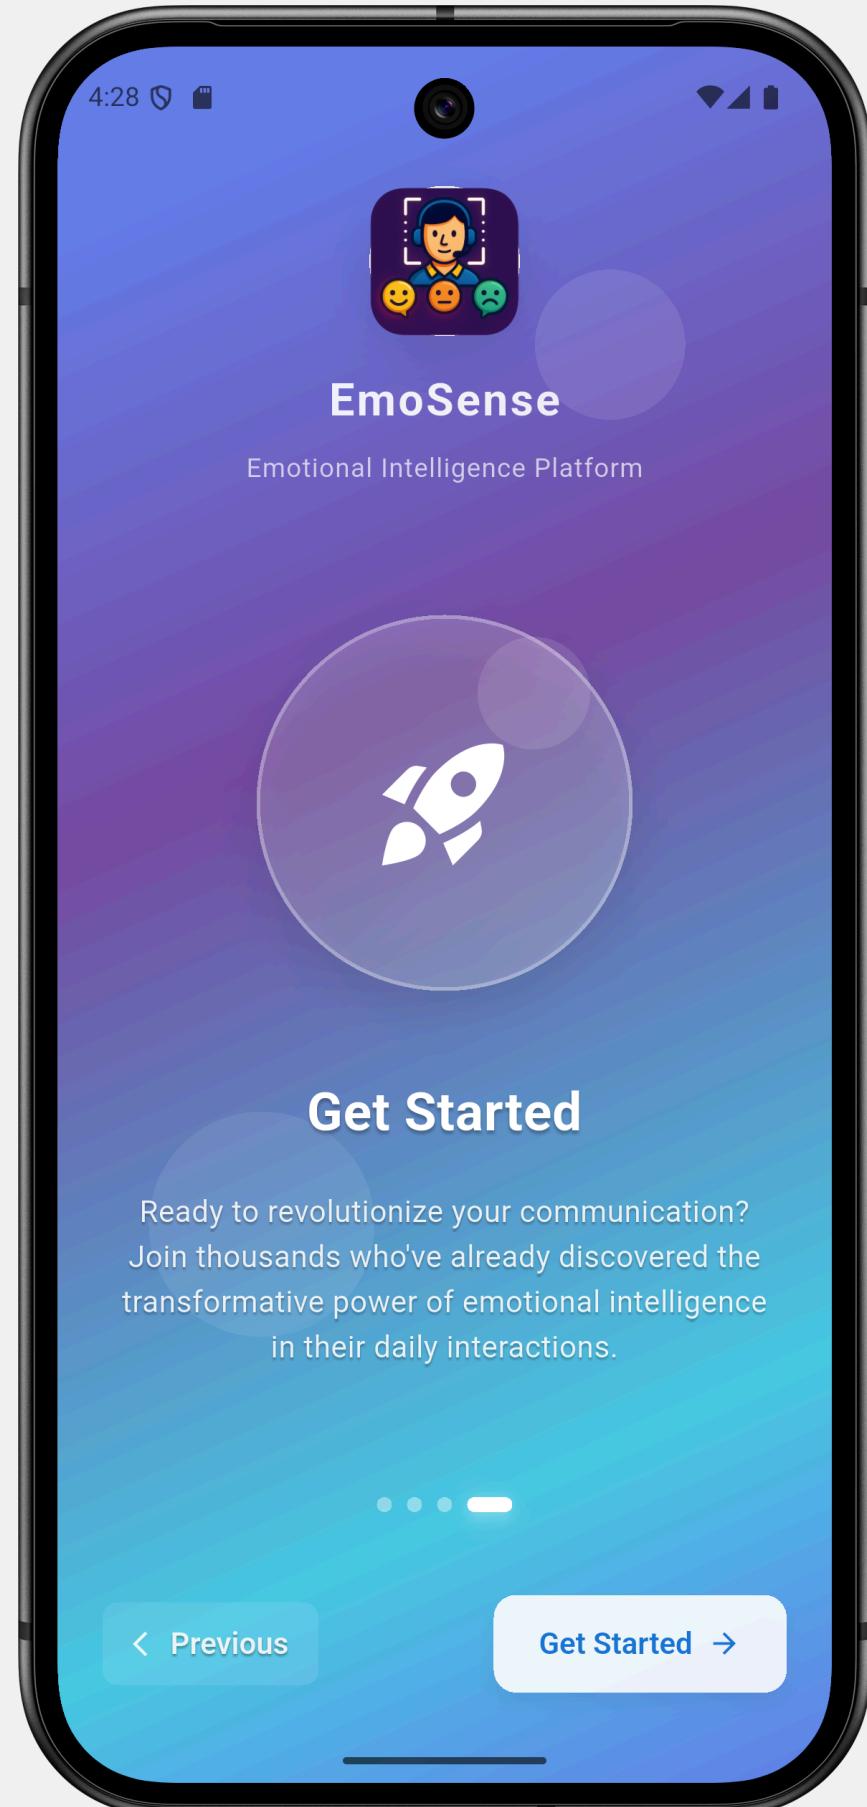

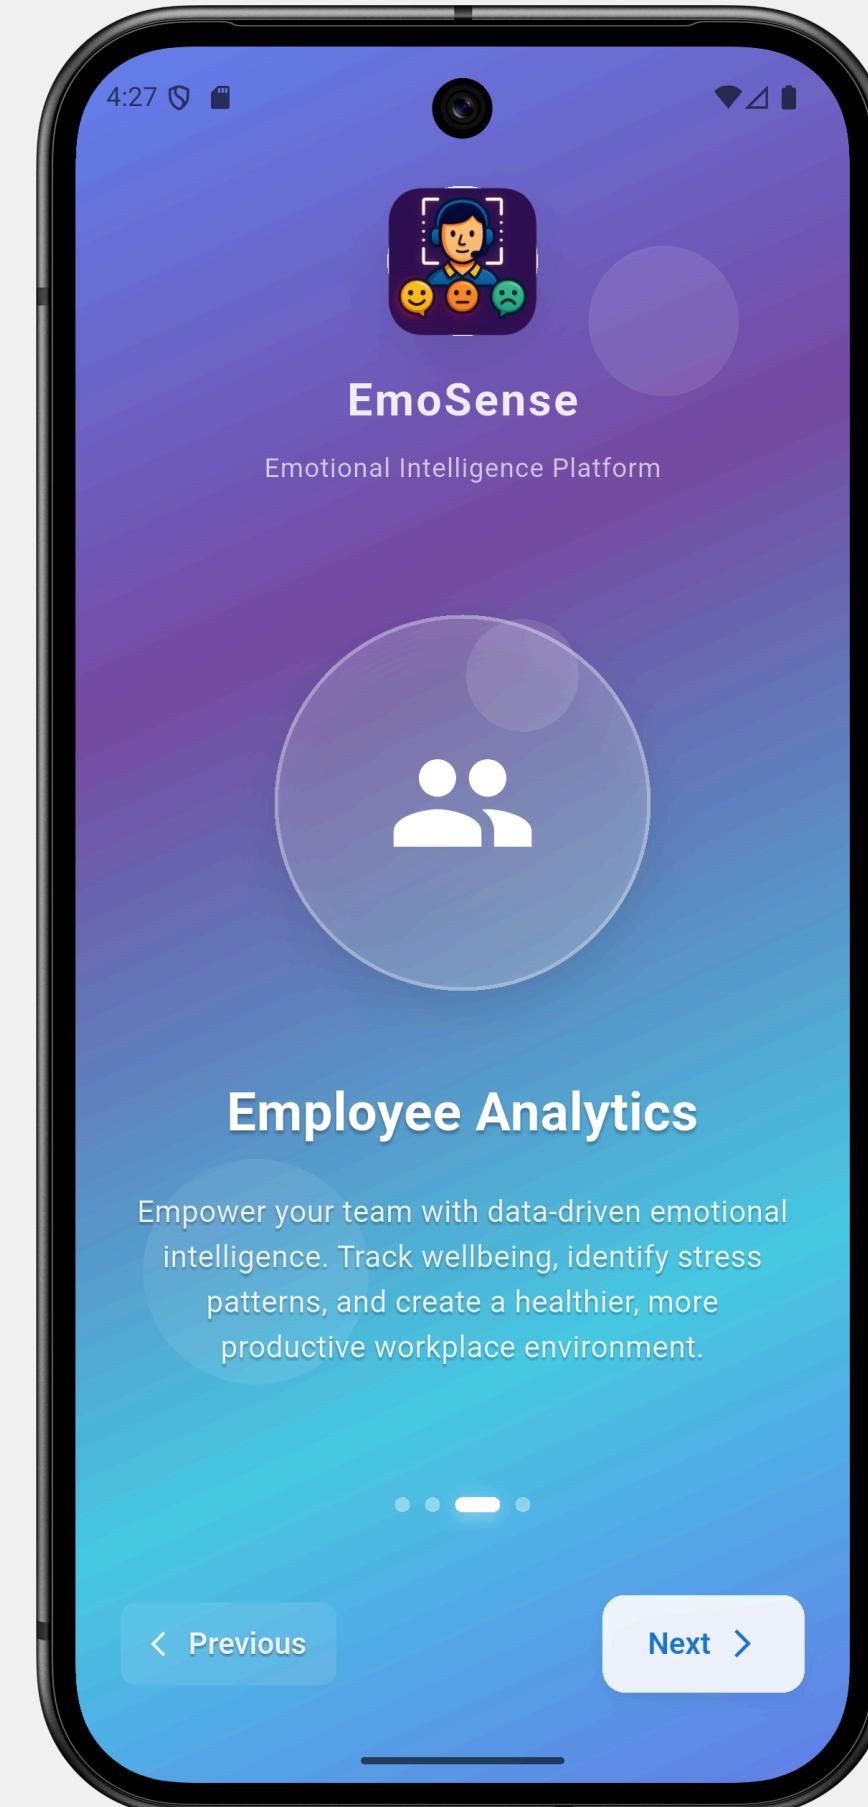

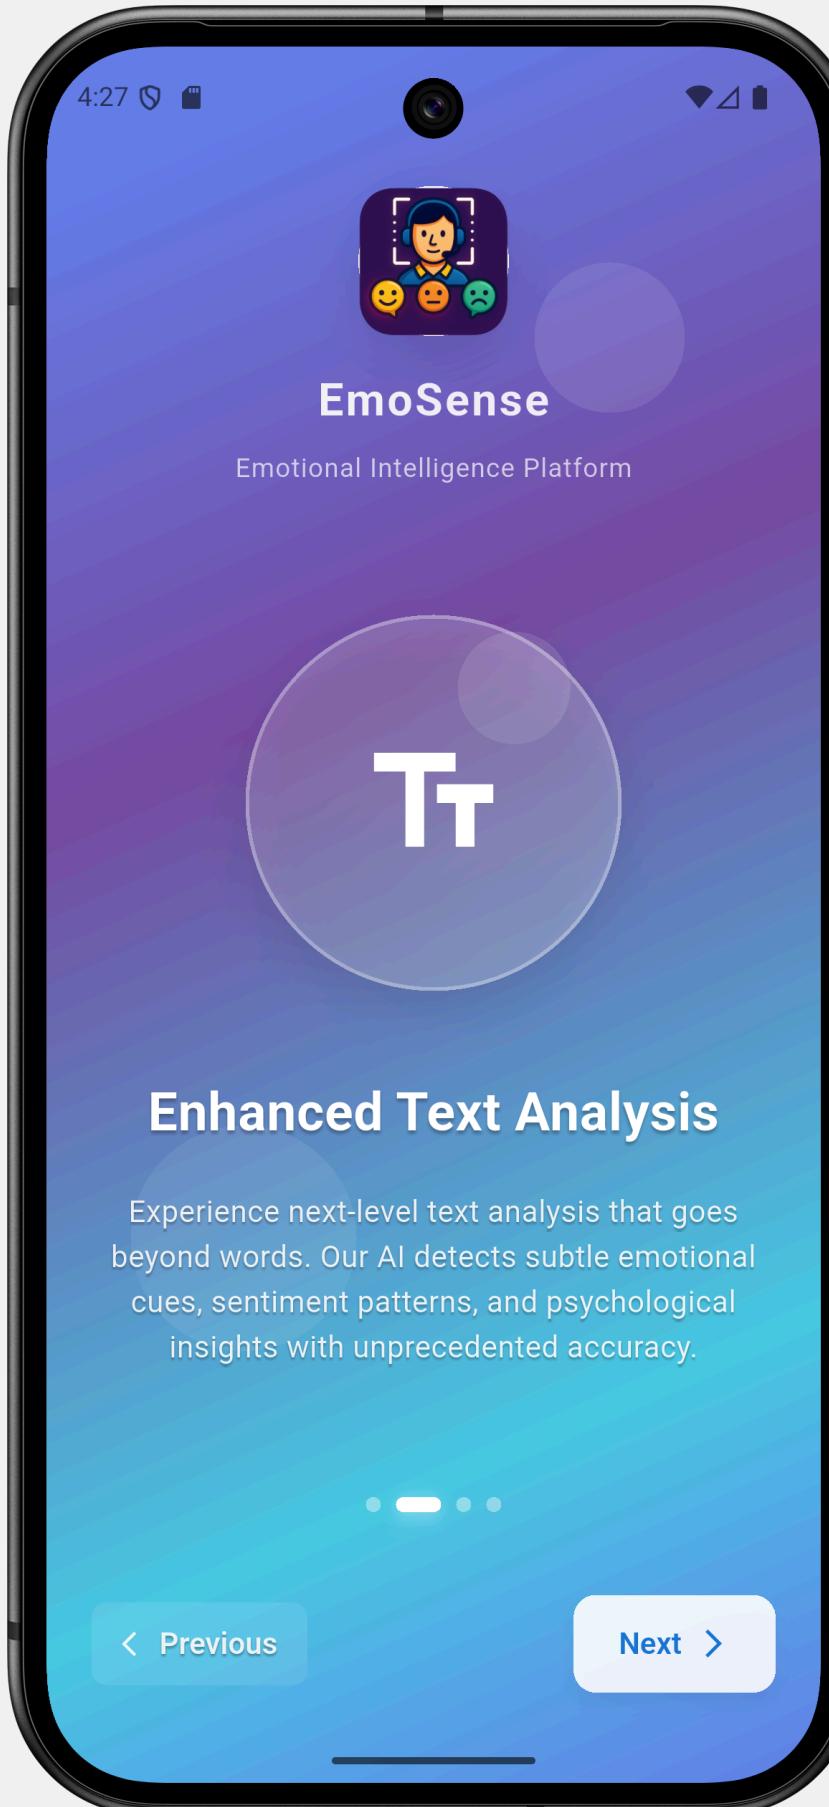

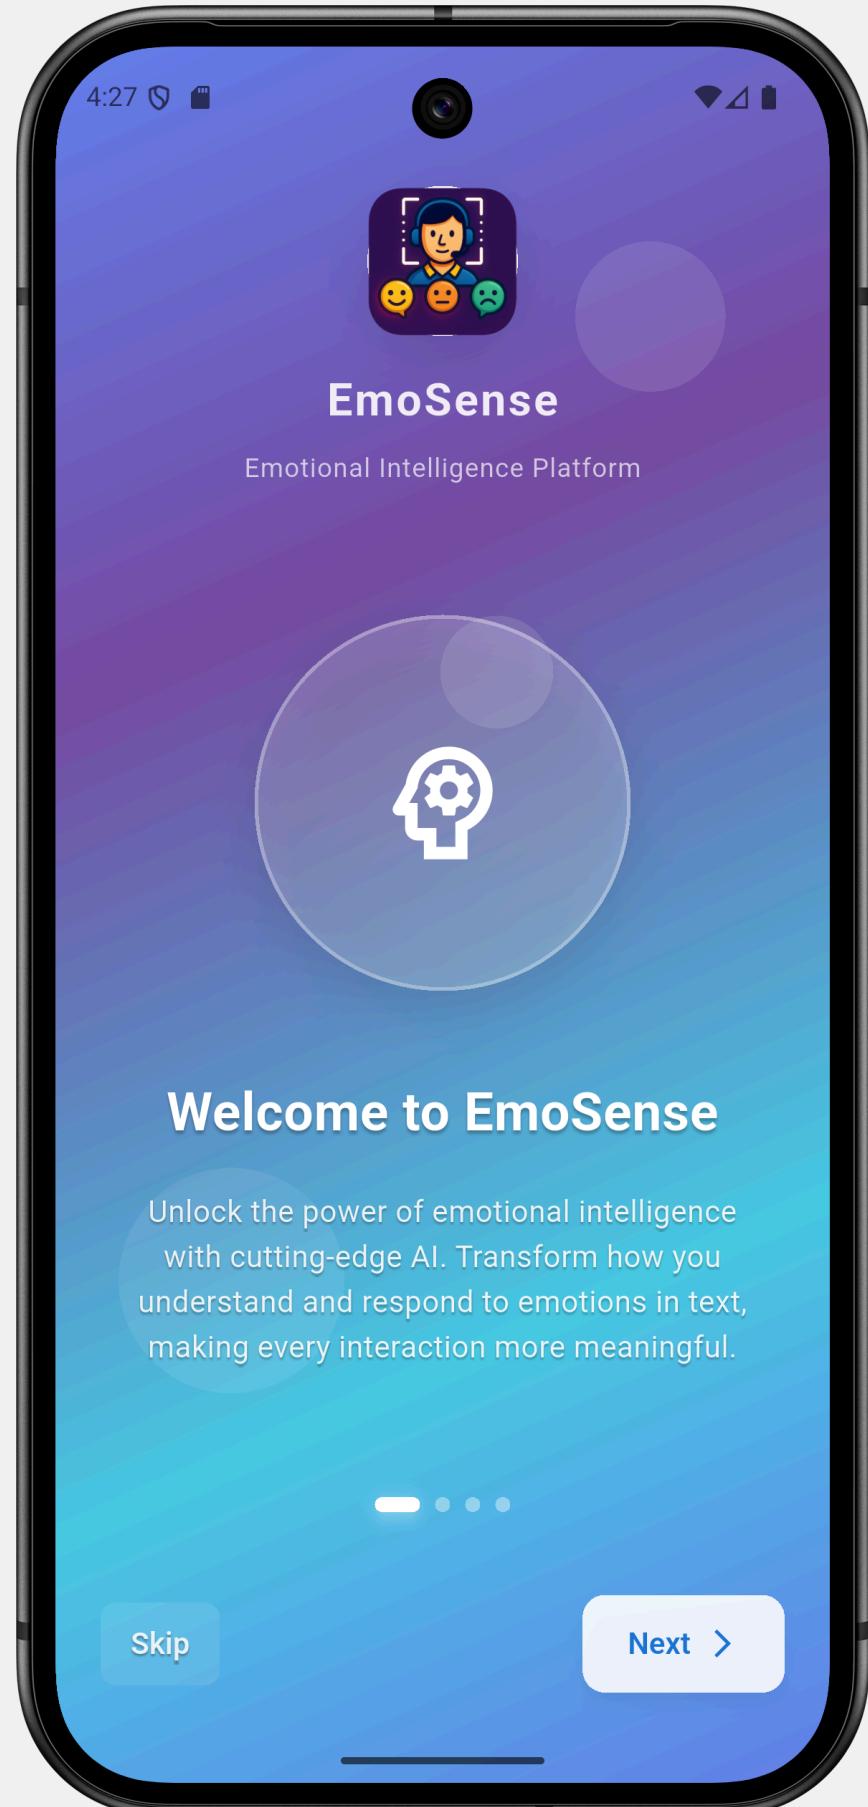

***Ideal for businesses that want to understand emotions and improve customer experiences.***
